- **Turnover up 3% YoY to €4,146 mn with a robust EBITDA growth of 11% YoY to €609 mn, leading to a profitability improvement to 15%, up 1 p.p. YoY**
- **E&C revenues increased by 4% YoY to €3,675 mn**, mainly driven by the performance in Latin America, whereas turnover in Europe was impacted by the activity reduction in Poland (still consolidated in September 2024) and in Africa by the initial execution phase of large projects that started in the 1H24, but that will have greater contributions until year end
- **E&C EBITDA increased 13% YoY to €519 mn** with a margin improvement to 14%, supported by better performance in Europe but mainly in Africa, while Latin America showed stable profitability
- **Industrial Engineering with 8 ongoing projects** showed a turnover of €283 mn, an increase of 4% YoY with a robust margin of 30% (+2 p.p. YoY), thus also contributing to the overall improvement of Africa's margin
- **Environment turnover reached €405 mn**, down 10% YoY, but with a solid profitability of 21% (up 2 p.p. YoY), with revenues being impacted by the deconsolidation of the Used Mineral Oils recycling in 2024, following its sale
- **Capital and MEXT turnover reached €109 mn**, up 13% YoY with an EBITDA of €4 mn

Backlog by Business Unit

E&C backlog by segment

- **Record backlog of €14.8 bn with an order intake of €5.5 bn YTD**, driven by the award of large projects in core markets
- **Core markets represent 78%**, with Mexico representing 23%, followed by Angola with 22% and Nigeria with 15%
- **The backlog supports a positive outlook for future activity and profitability** with a comfortable E&C Backlog/Turnover_{LTM} ratio of 2.8 years
- **Backlog does not yet include** the first section of the High-Speed Train project (Porto-Oiã) and the airport expansion works, both in Portugal, nor the new Industrial Engineering contracts in Ivory Coast, Mali, and Ethiopia for the client Allied Gold
- **Several other projects in the pipeline**, mainly projects related to the railway segment such as, the second section of the Portugal High-Speed Train, to be tendered in January 2025

¹Not considering revenues from concession contracts (highways and waste treatment).

- Region with several infrastructure opportunities and where 98% of contracts are signed with private players (tier 1) and with public clients, whose contracts are financed by multilaterals or with public guarantee financed by financial institutions

Major projects ongoing

- Lobito Railway Corridor** in Angola (2024 is the first full year of operation) as the most important African commodities logistic infrastructure and that could leverage new projects based on concessions scheme in Africa, namely in Angola
- Kano-Maradi railway project, including supply of rolling stock in Nigeria**, opened the door to a market with huge opportunities
- Industrial Engineering** with profitability above the region average, but still in a phase of demanding capex

Africa's infrastructure gap supports a long stance value creation

- Angola:** social infrastructures and operation, rehabilitation and extension of the Lobito Corridor
- Nigeria:** infrastructure projects (airports, ports, railway, energy, environment)
- Mozambique:** onshore LNG project expected to resume, when security conditions improve, leading Mozambique to be one of the world's major natural gas exporters
- Mining:** keep new opportunities on the radar in a sector where Mota-Engil is one of the major players in the continent, while leveraging on extensions of existing contracts

Industrial Engineering is one of the main growth drivers

Environment

- Collection
- Processing
- Recovery
- Waste-to-Energy

The Mota-Engil Group started operating in the Environment sector in 1995 in Portugal through SUMA in the segment of management and waste collection, aggregating competences with EGF, leading company in the waste treatment and recovery, having European cutting-edge technology in waste treatment and recovery, as well as in energy production through biogas capture in landfill and energy recovery plant. In Portugal the operations have a market share of 40% in urban services and 60% in treatment.

At an international level, Mota-Engil has increasingly expanded its activity in this sector for markets such as Angola (Vista Waste), Mozambique (Eco Life), Cape Verde (Agir), Mexico (Bordo Poniente), Brazil (Consita), Oman (Eco Vision) and Côte d'Ivoire (Eco Eburnie and Clean Eburnie).
